

CrowdStrike Wins Most Categories of Any Vendor at SC Awards Europe 2024

June 5, 2024

The Falcon platform further validates position as cybersecurity's consolidation platform of choice; wins Best Cloud Security, Endpoint, AI, Threat Intelligence and Incident Response

LONDON--(BUSINESS WIRE)--Jun. 5, 2024-- [CrowdStrike](#) (Nasdaq: CRWD) today announced that the AI-native [CrowdStrike Falcon® cybersecurity platform](#) won five awards in the [SC Awards Europe 2024 – the most of any vendor in this year's competition](#). CrowdStrike won for Best Cloud Security Solution, Best Endpoint Solution, Best AI Solution, Best Threat Intelligence Technology and Best Incident Response Solution.

The number of category victories further validates the Falcon platform as cybersecurity's consolidation platform of choice. CrowdStrike provides comprehensive visibility and real-time detection across all key attack surfaces with a lightweight, single agent, single platform architecture. With CrowdStrike, customers consolidate point products, reduce operational complexity and gain the speed, threat intelligence and automation they need for the outcome that matters most – stopping the breach.

“The award wins across such a breadth of categories demonstrates why customers continue to choose the Falcon platform to consolidate cybersecurity at scale,” said Jennifer Johnson, chief marketing officer at CrowdStrike. “Our unique platform architecture enables us to provide customers with best-in-class technology natively built into a single platform and delivered from a single agent. CrowdStrike continues to deliver the innovation customers need to stop breaches, eliminate complexity and drive extreme cost savings.”

About CrowdStrike

[CrowdStrike](#) (Nasdaq: CRWD), a global cybersecurity leader, has redefined modern security with the world's most advanced cloud-native platform for protecting critical areas of enterprise risk – endpoints and cloud workloads, identity and data.

Powered by the CrowdStrike Security Cloud and world-class AI, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities.

Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform delivers rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value.

CrowdStrike: We stop breaches.
