

CrowdStrike Named the Frost Radar™ Leader in Managed Detection and Response for Second Consecutive Year

CrowdStrike scores highest on Innovation and Growth indices for its industry-leading AI-native technology and elite security expertise, delivering best-in-class MDR

AUSTIN, Texas--(BUSINESS WIRE)--Jul. 22, 2025-- [CrowdStrike](#) (NASDAQ: CRWD) today announced it has been named the Innovation and Growth Leader in the [2025 Frost Radar™ Global Managed Detection and Response](#) for the second consecutive year, scoring highest of all vendors on both indices. Frost & Sullivan recognized the combination of CrowdStrike's industry-leading AI-native [Falcon® platform](#) and elite cyber expertise to deliver 24/7 detection, investigation, hands-on remediation, and proactive threat hunting across the entire attack surface.

Validating CrowdStrike's approach, the Frost Radar report notes: **“CrowdStrike shows an understanding of the most important megatrends in the MDR space: expanding proactive security capabilities; extending visibility, actionability, and integration throughout the ecosystem; and embedding AI directly into the SOC on a deeper level.”**

As cyber threats grow faster and more sophisticated, the skills gap continues to widen. [CrowdStrike Falcon® Complete Next-Gen MDR](#) delivers the AI-powered technology and cyber expertise modern organizations need to stop breaches. Acting as a force multiplier to internal security teams, Falcon Complete Next-Gen MDR delivers AI-accelerated threat detection, investigation, and response across endpoints, cloud, identities, and third-party data sources.

CrowdStrike strengths highlighted in the Frost Radar include:

- **Comprehensive Visibility Across Multiple Environments:** The report noted that CrowdStrike **“stands out for its extended coverage of the environment.”** Its single-agent platform architecture and [Falcon® Next-Gen SIEM](#) bring together native and third-party data with AI-driven automation and industry-leading threat intelligence, delivering end-to-end visibility and protection across the entire attack surface.
- **AI-Native SOC:** Frost highlights CrowdStrike's **“experience in AI implementation”** and **“strategic investments to take the SOC to a new level.”** Trained on trillions of daily security events and frontline intelligence, CrowdStrike AI continually learns and adapts to prevent, detect, and respond to evolving threats. Falcon Complete Next-Gen MDR analysts [now leverage](#) Charlotte AI to triage alerts and accelerate analysis, combining expert human oversight with intelligent automation to stop breaches more efficiently.
- **Customer-First Culture:** The report cites the quality of CrowdStrike's world-class security experts as a **“differentiator in the MDR market,”** noting that **“the culture of accountability, transparency, and excellence permeates across all of CrowdStrike's levels.”** Frost also reflects strong customer sentiment, stating **“CrowdStrike's customers highlight the rapid and effective incident response capabilities of the team, which galvanized their loyalty and support.”**

“CrowdStrike pioneered the MDR category and continues to set the standard with relentless innovation and a deep commitment to keeping customers ahead of modern threats,” said Tom Etheridge, chief global services officer at CrowdStrike. “We believe this recognition – leading both the Innovation and Growth indices – validates our outcomes based approach to MDR, combining cutting-edge AI-powered technology with elite security expertise to stop breaches.”

This recognition adds to CrowdStrike's growing list of accolades as the industry leader in MDR, including [Frost & Sullivan's 2024 Company of the Year in MDR](#), a Customers' Choice award in the [2024 Gartner Peer Insights™ 'Voice of the Customer' Managed Detection and Response report](#), and the designation of Overall Leader in [KuppingerCole's 2024 Leadership Compass for MDR](#).

About CrowdStrike

[CrowdStrike](#) (NASDAQ: CRWD), a global cybersecurity leader, has redefined modern security with the world's most advanced cloud-native platform for protecting critical areas of enterprise risk – endpoints and cloud workloads, identity and data.

Powered by the CrowdStrike Security Cloud and world-class AI, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities.

Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform delivers rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value.
